Subject: RE: letter of support for internal grant at Hopkins on systematic reviews
Attachments: lipitz v 6 8.17.15.docx

Importance: High

We hope you can provide us a brief letter of support primarily attesting to the policy relevance and importance of our work on systematic reviews in toxicology
We need this letter by September 20 if at all possible

Subject: letter of support for internal grant at Hopkins on systematic reviews

Dear Friends:

We are applying for funds from an internal source within the Department of Health Policy and Management for support of our work on systematic methods for nonhuman toxicology. For this purpose we need to demonstrate that you as representatives of the world of systematic methods consider this project to be of value in public health policy. The modest funds would be used to support office costs and travel for Dr Mandrioli and myself to the 2016 CC meeting.

I am attaching a draft version of this proposal [without references], and I hope you can provide a letter of support. Please send a short letter on your letterhead to me for inclusion in our application package. I will send you the absolutely final draft of this proposal prior to that time.
